The Massillon Independent.

ISSUED SEMI-WEEKLY. MASSILLON, OHIO. MONDAY, OCTOBER 9, 1905 XLIII—NO. 29

THE CRUELTY OF A NEW GOVERNOR

A Letter from the Rev. Baba N. Shabaz.

MANY HORRIBLE MUTILATIONS.

In Order to Show His Visitor a Specimen of His Character He Sent for Three Koordish Prisoners and Had Them Tortured.

In a recent letter a Persian missionary, the Rev. Baba N. Shabaz, who has many friends in Massillon, writes:

It is only a few days since I returned from an extended tour of the villages in our neighborhood. It proved to be a most blessed and helpful journey, both to myself and to the many villagers with whom I came in contact. Many heard the word of God for the first time, and it made one's heart tremble watching to see what effect it would have upon them.

This week a new governor was sent us from Tabriz to take the place of the one recently taken in chains to the capital for having incurred the royal displeasure. I called upon the new man yesterday; he seemed to be very gracious to me, and he even expressed the desire to send his only son to our school when open in September.

But he gave his visitors a specimen of his character when he commanded to have three Koordish prisoners punished in his presence. One of them had his right hand cut off, then smeared in boiling oil to stop the blood flow. A second, after having one of his eyes put out, was beaten with fifty stripes on the soles of his bare feet. The third, a burly Koord arrested for murder, was strangled to death in a most horrible way. His hands being tied behind him, two men put a rope around his neck and each pulled in the opposite direction. In a few minutes a stream of blood was flowing from the mouth and nose; but, alas, the rope broke and the poor wretch began to run for his life. Again he was knocked down and another rope tied around the neck. There was some more pulling; this time by four servants; he was again given up for dead, but a third time he got up and tried to make his way to the outer court. This enraged the cruel governor; he started to frown and yell at the servants to do away with the Koord as quickly as possible. They caught him, this time thrusting an iron bar in his mouth, and stuffing it with dirty rags until he could breathe no longer. But even this would not satisfy the tyrant; he ordered his head to be cut off and his corpse was hung on the gallows the rest of the day. It was a ghastly sight and its horror will never be forgotten by me. Twice I asked the governor to allow me to depart from his presence, but he would not give me such permission, thinking it—as it seemed from his remarks—to be quite an entertainment to his visitors.

My heart is truly sick of these painful spectacles. I pray and long for the time when the Lord shall open the hearts of these people to the precious gospel of His love and peace. All I can do now is simply to pity, but cannot help the misfortunes of my fellowmen. I am every day more and more convinced that this is a most dreadfully wicked country; nothing but the almighty power of God can produce a change for the better. Pray for much for me and for the little band of followers, rescued from this terrible darkness and death, that the Lord may spare our lives and make us very useful in His service.

Yours in Christ Jesus,
BABA N. SHABAZ.

OBJECT TO DOWIE.

Mexicans Oppose Establishment of Zion City.

Chicago, Oct. 7. — Dispatches received here today indicate that Mexicans are very hostile to the plan of John Alexander Dowie to establish a colony in Mexico and their oppposition has become so marked that troops have been ordered to protect the property of Elijah III. It is said a large consignment of stores sent ahead has been burned and that the Mexicans threaten to burn the Dowie buildings as fast as erected.

Reassured by the friendliness of President Diaz, Dowie will go ahead with his colonization plans, but his followers in Mexico are reported as greatly alarmed.

The Independent exchange column will bring results. Try it.

ARMY SURGEON'S REPORT.

Progressive Improvement in Health of Soldiers.

Washington, Oct. 7.—Surgeon-General R. M. O'Reilly, of the United States army, has submitted to Secretary Taft an exhaustive report on the health conditions of the army for the past year. The report shows 79,586 admissions to sick report during the year, 406 deaths, 1,377 discharged for disability, showing a progressive improvement in the health of the army. He says sixteen per cent of the admissions to sick report were caused by immoral habits and suggests that the control of these diseases rests largely with civil authorities. Pneumonia caused the most deaths, with tuberculosis next.

WILL MEET NEXT IN CLEVELAND

Profitable Convention of Assistant Physicians Here.

NOTES FROM STATE HOSPITAL.

Many Rods of Cement Foot Walks Have Been Laid During the Past Few Months—The Trustees Will Meet October 19.

The meeting of assistant physicians at the Massillon state hospital this week, when twenty-five were present from all the Ohio hospitals, was one of the best ever held by the association. The subjects treated of in papers and by discussions were timely and all present took deep interest in the new thoughts advanced. For many of the physicians this was their first visit to the Massillon hospital, and a trip over the grounds and through the buildings was a treat in itself. Time was given during the convention for several social affairs and to inspect the apparatus for treatment at the hospital. The association meets twice a year. The next meeting will be held in Cleveland the first Wednesday and Thursday in April. No officers were elected at the meeting here, but officers will be elected for one year at the Cleveland meeting. Dr. E. C. Brown, of the Massillon hospital, is vice president of the association. Dr. N. H. Young, of Toledo, is president.

The last section of cement walk has been built for the present season. During the summer several new walks were laid and several parts laid which joined other walks built in former years. The large walk leading to the administration building from the end of the street car line was built this summer. The water basin and fountain at the entrance of the grounds was also erected during the past few months. Walks now lead to all parts of the grounds and around all of the cottages. Cottage No. 5, which is under construction, is slowly assuming its permanent shape and will be ready in about two months for patients. This was commenced over a year ago but because of unavoidable delays has not yet been put into use.

The trustees will meet Thursday, October 19, and it is expected that considerable routine work will come before the officers because of the near approach of the end of the fiscal year, which comes to a close November 15. Reports of all transactions in all departments must be made up and forwarded to the proper officials at Columbus. This work requires several weeks and in a large institution like the Massillon hospital means that great care must be used to insure accuracy. From the state, the national government compiles statistics and from a compilation of the various governments' reports a general summary of the condition of the human race in the civilized countries is obtained. The report for the past year will show that the increase in the number of patients in the Massillon hospital is greater than in former years.

Mr. and Mrs. Harry Greiner, of Salem, were the guests of Miss Grace Boone at the administration building Thursday.

Dr. J. M. McGeorge was called to New Galilee Friday because of the serious illness of his father.

Superintendent H. C. Eyman was called to Canal Dover in consultation Friday morning.

The Canton-Akron Railway Company has not commenced its contemplated improvements in the hospital grounds.

It pays to try our want columns

CHURCH WALLS NEARLY DONE.

The Supports for the Roof are in Place.

DANGEROUS PIECE OF WORK.

Roof of the Parish House Will Soon be Put in Place—Basement Will be Completed First—Thirty Rooms in Building.

The most dangerous and laborious single piece of work connected with the construction of the new Second Presbyterian church was completed Saturday, when the second scissor frame truss was placed in position. Two large wooden trusses will support the roof of the main building. These were erected Friday and Satruday.

The raising had many interested spectators. Each truss is a triangular frame reaching across a fifty foot space and weighs over five tons. The timbers are the best that could be obtained and the angles have been strengthened and braced by iron clasps, which weigh nearly six hundred pounds. It took over a week to build the large supports. These supports were raised into position by means of a large gin pole, which was strengthened for the occasion by an additional standard securely bolted to the main pole. The trusses were raised by double purchase hand power. Each end, across the fifty foot span, rests upon solid masonry. The supports run north and south. The north end rests on the outside wall and the south end upon a brick pillar, which separates the main room from the parish house.

The parish house will be ready for the slate roof in a few days. Some of the sheeting is already in place. The south wall has been finished. The west wall is nearly completed but the east wall will require several days' work. The two heavy supports divide the distance between the east and west walls of the main part of the church.

The church building will contain thirty rooms, all of which will be finished. The basement will be completed as soon as the roof is in place and the congregation hopes to be able to use the basement for services by the beginning of next year.

TEACHERS UNDER ARREST.

Furnished Duplicates of Examination Questions.

Lima, Oct. 7.—The fact that a number of teachers have recently secured surprisingly high averages at examinations, started an investigation by Deputy State School Commissioner J. H. Snyder and sensational arrests were made at the Lima house yesterday.

S. E. Shultz, of Jumbo, Hardin county, and Holmes Williams, of Kenton, were closely shadowed and the two men were caught with the goods. Shultz and Williams were the center of a group of rural teachers and on the table before them were the printed forms of the examination questions.

The investigation may bring out other sensational disclosures as it is not yet known how the men got possession of the original forms.

A CHAPTER OF ACCIDENTS

Two Boys and a Man Hurt at Navarre on Tuesday.

Three accidents, all serious but none of them fatal, occurred at Navarre on Thursday. H. F. McCauley, of Canton, a brakeman on the Wheeling & Lake Erie railroad, fell from a freight car near the Elm Run mine switch and sustained serious bruises. His injuries were dressed at Navarre, after which he was taken to Canton.

Harold Balser aged 10, son of Mr. and Mrs. Thomas Balser, climbed onto the caboose of a freight train and then jumped off when the train was in motion. He fell beneath the cars and sustained many serious flesh wounds, including a bad cut in the head.

Edward Hodgson, aged 10, son of William Hodgson, stepped to one side of the Wheeling & Lake Erie transfer trestle to avoid a train and fell off, a distance of twenty feet. He also sustained severe cuts and bruises but no bones were broken. Dr. Shetler, of Navarre, had charge of the three victims.

Can't be perfect health without pure blood. Burdock Blood Bitters makes pure blood. Tones and invigorates the whole system.

'Tisn't safe to be a day without Dr. Thomas' Eclectric Oil in the house. Never can tell what moment an accident is going to happen.

MAUD MULLER'S NEW RAKE.

Haymaking as Conducted on Big Western Ranches.

Ansley, Neb., Oct. 7.—Haying now on the big ranches of the West is a very different proposition from what it was in the days when Maud Muller and her wooden rake caught the eye of the poet. During most of the summer the only harvesting done is with the teeth of the grazing cattle, but there arrives a time when winter feed must be prepared, and then comes the haying crew.

Where circumstances permit, half a dozen mowers are used, one behind the other, each drawn by three horses and cutting a seven foot swath. Following these are giant rakes which windrow the grass and prepare it for the stacker. Three great sweeps next come along and carry the hay to the stacker, sometimes nearly a ton at a load. The haysweep and the stacker are two of the greatest labor saving devices ever invented.

The sweep is a great strong rake with teeth from six to eight feet long carried on low wheels and running ahead of the team. By means of it the hay is fed to the stacker, which does the rest.

Everything is done as by clockwork. The lead mower lays out the land to suit the stackers, and in this way the entire crew is kept busy, the stacking immediately following the cutting. A seven foot mower with three horses will cut from fifteen to twenty acres a day, and the whole haying outfit will stack seventy-five tons in that time. On the larger ranches several of these outfits are kept going at the same time for weeks.

Contrary to the experience of Eastern farmers, hay put up the same day it is cut does not rot in the stack. The old idea of curing hay until dry has been proved wrong by a thousand tests on Nebraska ranches. The curing it gets on the windrow is all that it needs.

It must not be supposed, however, that the labor saving machinery has driven all the Maud Mullers out of the hayraking business. On many ranches here in northwest Nebraska Maud Mullers raking hay with huge horse rakes or running stackers, putting up dozens of tons of hay a day, may be seen at anytime from July until October—only they won't give any judge a dipper full of water to drink. To stop for a moment would delay the remainder of the crew, and the best Maud Muller can do is to point to the jug and thus save any vain regrets.

COXEY HOLDINGS SOLD.

James H. Hunt Bid the Property in for $56,150.

The J. S. Coxey stone quarry with all appurtenances, known as a part of the holdings of the Coxey Steel and Silica Sand Company, and located north of Massillon, was sold by Receiver James Israel, of Mt. Vernon, Friday morning, at public auction on the premises, to James H. Hunt, of Massillon, for $56,150. The real estate and machinery was bid in for $55,000 and the personal property for $1,150. This amount is a few thousands below two-thirds of the appraisement and the sale will have to be confirmed by the common pleas court of Knox county, which will begin its next session October 14, in Mt. Vernon.

Receiver Israel was accompanied by Attorney Frank Moore and J. J. Beech, of Mt. Vernon, and G. W. Carpenter, of Columbus. J. H. Hunt and J. C. Corns, of Massillon, in company with Mr. Coxey, were present. The offerings of the property Friday was the second time a sale has been attempted in the last three months. It is expected that the sale of the property will be confirmed by the court.

TO MEET OCT. 10.

Commissioners to Discuss Railway Service with Councilmen.

The following call was sent by the county commissioners Friday afternoon to the city councils of Canton, Massillon, Navarre and Beach City:

We, the undersigned commissioners of Stark county, most respectfully ask your honorable body to meet with us, together with the councils of Canton, Massillon, Navarre and Beach City, to discuss the matter of the present service given the public by the Canton-Akron Electric Railway Company, both on city and interurban lines.

The service now being given by said company is very unsatisfactory and the time has come when it should be remedied by the action of the people who granted the franchises. This service has existed ever since the present management has had control of affairs.

We would like to have this meeting not later than Tuesday afternoon, October 10, to be held in the council chamber at Canton.

Signed, J. C. BURNHEIMER,
AUSTIN A. HAY.

DEATH IN A COAL MINE.

Gottfried Kemp Crushed by Fall of Roof.

SON IS SERIOUSLY INJURED

While Bearing Off in Newman Creek Coal Mine a Mass of Rock Falls From the Roof Without a Moment's Warning—Leaves Wife and Children.

Gottfried Kemp, a miner, was instantly killed and his son, Edward, received serious, though not fatal, injuries, while at work in the Newman Creek coal mine, two miles northwest of this city, near Boyd's Corners, Saturday afternoon. They were engaged in bearing off coal, when, without an instant's warning, a mass of rock fell from the roof, crushing the life out of the elder Kemp and pinning the son down. Fellow workmen at once went to the rescue, removed the rock from the young man and recovered the body of his father.

Dr. F. B. Williamson was summoned and attended to the injuries of the boy, and anticipates a speedy recovery. The body of the elder Kemp was removed to his home in North Mill street. A widow and several children survive.

The coroner will be summoned and an inquest will probably be held Sunday.

ARRESTED ON A PERJURY CHARGE

Anton Gallo Again in the Hands of the Law.

HIS BAIL FIXED AT $1,000.

"Tony" Applied for Discharge from Bankruptcy Obligations and was Again Doing Business at His North Erie Street Location.

Anton Gallo, the North Erie street fruit dealer, was arrested by Deputy Sheriff Zaiser, Friday afternoon, on the charge of perjury. He was indicted by the grand jury, but the fact was not published, as Gallo had not been arrested. His bond was fixed at $1,000, which was furnished. "Tony," as he is known, filed a petition of voluntary bankruptcy several months ago, as the result of failure to meet obligations with Eastern fruit concerns. It was during the hearing of this petition that it is alleged he swore falsely, and the charge of perjury was then filed against him.

Since he filed his petition for bankruptcy Gallo has continued to do business at his old stand in North Erie street, and it was generally supposed locally that his troubles were over. The present charge against him is more serious than that brought by his Eastern creditors.

The original bankruptcy proceedings were instituted by a Baltimore firm from which Gallo is said to have purchased $400 worth of fruit for which he did not pay. Then a Pittsburg firm sent a representative here to collect a bill and Gallo, after paying off his employes was closed up and all the goods on hand were sold by the constable. The proceeds were not sufficient to cover the costs of the proceedings. Since re-entering business Gallo has been able to regain considerable of his lost patronage and was again on the road to success.

CHAPELLE'S SUCCESSOR.

Vatican Urged to Appoint Archbishop Farley.

Rome, Oct. 7.—The vatican has been urged to appoint Archbishop Farley, of New York, apostolic delegate to Cuba and Puerto Rico to succeed the late Archbishop Chapelle, of New Orleans. The appointment is considered a most important one.

A MURDER MYSTERY.

Two Men and a Child Found Dead.

Middletown, N. Y., Oct. 7.—The authorities are trying to solve the mystery of a murder last night of nine-year-old Alice Ingerick and Willis and Fred Olney and a probably fatal assault on Mrs. Ingerick, the girl's mother. Mrs. Ingerick, who was separated from her husband, was housekeeper for the Olneys. She was beaten into unconsciousness by her assailants. Up to 11 o'clock today she had not been revived and the physicians attending her believes she will die without being able to tell the story of the killing of her daughter and her employers. Today the Olneys' bodies were found in the woods near their home. Wagon tracks near by indicated that the men had been killed at some other point and the bodies taken to the woods.

THE EPIDEMIC OF HOG CHOLERA

Methods for Cure and Prevention of the Disease.

EXPLAINED BY DR. W. E. GROFF.

Hog Disease is Mainly Propagated by Contagion, Through Faults in Diet—Good Management May Prevent a Fatal Outcome.

The epidemic of hog cholera of a week's duration is assuming serious proportions in this vicinity, many new cases being reported daily. In one instance a farmer is known to have lost an entire herd by the disease. In response to an inquiry from The Independent Veterinary Surgeon W. E. Groff has furnished the following information regarding the disease with methods for its cure or prevention:

So-called hog cholera is fatal in from one to six days or ends in a tedious, uncertain recovery. It is very important to realize that too much care cannot be taken to provide the best possible sanitary conditions. Chloride of lime and carbolic acid may be used with good effect. The disease is mainly propagated by contagion, though faults in diet and mangement may serve to develop it. The poison will blow a considerable distance on the wind and it is with difficulty destroyed in hogpens, fodder, etc. Hog cholera is described as one of the most difficult problems which has engaged the attention of many eminent veterinary surgeons throughout the United States.

In practice it is found that hogs are not only exposed to cholera but also to a disease called swine plague, both of which may occur together in the same animal, or there may be an outbreak of one or the other disease alone. It is very liable to originate on wet or low land in a dry season or on high and naturally dry land in a very wet season, if the soil is rich in humus. The most thrifty animals in a herd become victims of the disease, contracting it usually in its most acute and malignant forms, while the poorer animals may escape entirely. There is no certain specific for the disease, hence the necessity of prevention. The fact that the cause of infection can be carried from one farm to another by animals, birds, and by water running through farms on which the disease exists, by farmers themselves visiting the pens and lots where their neighbors have sick hogs, cannot be too strongly emphasized. Disinfection of the premises is an absolute necessity; nutritious food and a pure water supply should be secured and the animals should have access to comfortable and well protected sheds. Treatment ought not to be permitted unless in a constantly disinfected atmosphere. Under existing conditions newly purchased pigs should be placed at a safe distance, under quarantine, until their health has been proved.

Practical and effective preventive measures are most necessary in coping with this disease, to which the hog is so generally subject.

POSTOFFICE ROBBED.

Large Sum Taken From Safe at Chagrin Falls.

Cleveland, Oct. 7.—Robbers blew open the safe in the postoffice at Chagrin Falls early today and escaped, after exchanging shots with Banker W. E. Rogers, who had been aroused and was on his way to the scene with a Winchester, thinking it was the bank which was being burglarized. It is believed a large sum of money was in the safe.

3rd Ward—ED RICHARDSON.

Boys whose school work is not up to a given average are not to be permitted to play foot ball. This is the rule in the Massillon high school. It puts school sports on their proper basis and is eminently satisfactory to the parents and guardians of the children, as well as to members of the high school faculty.

In another column The Independent prints the result of an interview with Veterinary Surgeon Groff, of this city, on the subject of hog cholera, its prevention and cure. At a time when the epidemic is causing anxiety to farmers throughout this section of the state Dr. Groff's advice will be found extremely helpful. It appears that the disease, in its worst form, is very contagious and that one of the most important preventive measures is that which farmers should take to keep healthy hogs from becoming infected. Dr. Groff shows that an ounce of prevention in this case is doubly worth a pound of cure.

TACIFUL AS USUAL.

The President, with characteristic resourcefulness, has found a way to visit New Orleans without embarrassing states in which quarantine regulations are rigidly enforced. He will visit the Louisiana city on October 26 and will return to Washington from New Orleans on a naval vessel. Thus he will not pass through any state which has quarantined against New Orleans. This announcement will allay the apprehensions and remove the embarrassment of some of the governors in the ever belt. At any other time their hospitality would be unbounded, but when yellow jack is around they feel constrained to suppress their hospitable instincts. Possibly when the governors, business men and doctors of Dixie hold their convention next month they may agree upon a less rigorous and more scientific quarantine system than that which is now in operation. —Baltimore Sun.

AT SPRING HILL.

Mr. and Mrs. Wales and Miss McClymonds Entertain.

Forty guests were entertained at Spring Hill, the beautiful country home of Mr. and Mrs. Arvine Wales, Friday evening with a dinner, followed by progressive euchre. The affair was given by Mr. and Mrs. Wales and Miss McClymonds. It preceded by a few days the departure of the latter from the city for a stay of some time and that of Horatio Wales for Cleveland, Okla. It also marked the first appearance in society since their marriage of Mr. and Mrs. Charles E. McLain, who returned last week from Asheville, N. C. Dinner was served at two large and several small tables in the big living room, dining room and library. Pink roses, carnations and ferns decorated the tables and masses of pink dahlias were scattered throughout the rooms. Wood fires burned in all the fireplaces. The dinner cards were artistic sketches in colors harmonizing with the flowers.

At the close of the progressive euchre games it was found necessary to have Mrs. Robert R. Hess and Mrs. E. E. Fox, Robert R. Hess and Robert H. Day cut for first honors. Mr. and Mrs. Hess were successful, the latter receiving a silk scarf of delicate colors and the former a handsome silver pocket match safe. The consolation prize, a book, went to Ralph Hipp. Among the guests were F. F. Spencer, of Mexico City, N. M., who is visiting Mr. and Mrs. J. Ralph Dangler, and John Carmack, of El Paso, Tex., the guest of his sister, Mrs. E. E. Fox.

CASES ASSIGNED.

Court to be Held in but One Room Next Week.

Canton, Oct. 7.—The following assignment of cases has been made for court room No. 1 next week, Judge Ambler presiding. Judge Harter will hold court in Carrollton:

Monday, October 9—Motions; Scott vs Langenbach; Neyens vs Gaaher; Massillon & Cleveland Coal Company, receiver, vs Massillon Bottle and Glass Company.

Tuesday—Teeters vs Brown; Dudley vs Berger; Bellaire B. and I. Works vs Russell Engine Company; Heim vs American Steel Foundry Company; Hay vs Hay.

Wednesday—Hossler vs Reich; Black & Company vs Bloomberg; Einstein Brothers vs Bobrof; Henry vs Bucher; Lehman vs Belden et al.

Thursday—Sharp vs Reed; Studer vs Stuart; McGinnis vs Massillon Coal Mining Company; Beichele vs West End Notion Company; Pike vs Wagner.

Friday—Schneider Machine Company vs Bast; El Dorado Jewelry Company vs Thurin; Kromer et al vs Dayton Lane vs Fogg.

K. OF P. SQUABBLE.

Charges Against Minshull Not Yet Settled.

Cleveland, Oct. 7.—The findings of the Walker court martial held by the Ohio brigade, Uniform Rank, Knights of Pythias, in Cleveland, last July, were returned to Brigadier General Thomas W. Minshull without approval by Supreme Chancellor Charles E. Shively. The return has not been made public before.

Present indications are that the friends of James H. Walker, the defendant in the court martial, will seize upon this opportunity to wage bitter warfare against General Minshull, who, they declare, instigated the charges against Walker. It is declared that they will attempt to remove him from office, and also to obtain his expulsion from the order.

The findings of the court martial were sent to the supreme chancellor for approval shortly after the trial was held, and the friends of Mr. Walker declare that the return made by Mr. Shively was received by General Minshull some time ago, but was held up by him and not made public. At the time of the court martial feeling ran high between the two factions in the order. Now it appears that strife even more bitter is about to be begun.

The Voice of Sincerity.

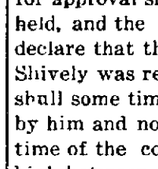
Children are said to be good, although unconscious, judges of human nature, and most of them do at least recognize sincerity and detect pretense.

"Come here, my little darling," said the book agent. She had a face which belied her words, but she was trying to cultivate the little daughter of the woman who had not yet come downstairs. "I do so love children," she added, in a clear tone, as she heard footsteps on the stairs, "but you seem to like the kitty better than me. Why are you so fond of her?"

"'Cause she purs as if she meant it," said the little girl calmly.

Even an electric button won't accomplish much unless it is pushed.—Philadelphia Record.

Dr. KENNEDY'S FAVORITE REMEDY



Pleasant to take, Powerful to Cure, And Welcome in every Home.

KIDNEY and LIVER cure.

Dr. Kennedy's Favorite Remedy is adapted to all ages and both sexes, affording permanent relief in all cases caused by impurity of the blood, such as, Kidney, Bladder and Liver Complaints, Constipation, and weaknesses peculiar to women. Successful for 30 years. Prepared by DR. D. KENNEDY'S SONS, Rondout, N. Y.
$1.00 all druggists. Six bottles $5.00.

THIRTY-FOUR TO NOTHING

Massillon's Big Tigers Win With Ease.

EVERY MAN ON TEAM A STAR

Hard to Pick the Best of the Bunch, but "Bullet" Riley Captured the Crowd—Local Men Were in Every Play and None Were Found Lacking.

With an ideal day for the opening, an immense crowd in which the orange and black was liberally distributed, with Tiger pennants floating from all four goal posts and two high flag staffs and all the elements favoring an auspicious opening, the Tigers clashed on the base ball park this afternoon.

The Ohio Medical University was well represented, having a squad of twenty-six men in practice with probably fifty rooters in the crowd. The colors, which, incidentally, are the same as the Massillon Tiger colors, were waved enthusiastically as the O. M. U. Tigers marched onto the field.

Arthur Morris, of Western Reserve University, reached the grounds at 2 o'clock, having driven from Canton. The Columbus official was named just prior to the game Stanley Baltzly was selected as head linesman and the game was called shortly after 2:30 o'clock.

Long before 1 o'clock the streets began to fill. The Massillon band formed in front of the Schworm building in East Main street. The Rooters' Club took its position and was followed by both teams, and then the newsboys. The players took special cars at 1:30 o'clock for the field and after half an hour's practicing of signals began the game. The street car service was all right and the crowd was well taken care of by the large number of cars sent over by Manager Dimmock from Canton.

"Ted," the O. M. U. bulldog, mascot of the visiting team, was a prominent figure in the parade which preceded the game.

A big coal wagon load of spectators, hauled to the grounds by Frank Siffert, had a great time. The wagon was gaily bedecked with yellow and black colors, and the women in the party were furnished excellent seats whereon to witness the game.

THE GAME.

It was a great, glorious and overwhelming victory which the Massillon Tigers won from the Ohio Medical University Tigers Saturday afternoon, before a crowd of over two thousand wildly enthusiastic fans, the final score standing 34-0 in favor of the locals.

Seventeen of these points were scored in the first half and seventeen in the last half, showing that the Massillon Tigers came back just as fast in the second half as they played in the first half. This, too, with a big change in the lineup, and as a result the positions are still in doubt. Nobody who saw the game can question the fact that "Mully" Miller, Featheringham, Haag, Nesser, Siffert and Captain Wittmann did not weaken the team by any means.

But for decidedly rank street car service it is estimated that there would have been more than three thousand people on the grounds when the game was called. As it was, the power became exhausted just as the mass of spectators were on their way to the grounds, and there were large numbers who would not risk the trip, fearing that they would be left at the grounds after the game. Manager Wise has, therefore, to thank the street car company for the fact that over one thousand people were left up town.

The game began at 2:45 o'clock, Captain Wittmann winning the toss and choosing the south goal to defend. With Referee Morris in charge, the game began with a kick to Massillon's five yard line, which Jack Nesser brought back to the thirty-five yard line before being downed,. From that point Massillon started a series of end runs and heavy line plunges which carried the ball over the line in just four minutes of play, the goal being missed and the score standing 5-0.

The teams exchanged goals and O. M. U. kicked to Massillon again, the ball sailing over the goal line and being downed back of the line. Moran booted then from the twenty-five yard line to O. M. U.'s thirty five yard line.

Here the visitors had their first opportunity to show offensiveness, but failed miserably, being forced to punt after being driven back five yards. Stewart received the ball on Massillon's thirty-five yard line and by a series of bucks and end runs, in which Riley starred, the ball was taken to the forty yard line. A signal for a quarterback run developed good results and Stewrt carried the ball forty yards for a touchdown. Goal was kicked and the score stood 11-0.

The third touchdown came easily, Riley, Moran and J. Nesser working some sensational runs. Big Kerchoffe showed up wonderfully well on plunges just outside of the opposing tackle and made gains of fifteen and twenty yards at a clip. Then McFarland, Botoner, McChesney—and in fact the whole team, took a turn at advancing the ball, never once being checked, except when the ball was lost on fumbles. This catastrophe occurred at least three times during the game and probably prevented three touchdowns Moran made the third touchdown and Stewart kicked goal, making the score 17-0. After a short tussle, in which the Tigers began another march down the field, the timekeeper's whistle blew and the half ended.

SECOND HALF.

Nesser took McChesney's place in this half, Tilton replaced Botoner, Featheringham went to J. Nesser's place and Miller to Moran's place at fullback. Not a sign of weakness was manifested by the change and in fact the plays for a while went off faster than ever. Riley went around right end for a twenty yard run and touchdown within three minutes of play after the second half began, and Stewart kicked goal. Bast was then sent in to quarterback position, Haag to center and Captain Wittmann relieved Merriam, who had his ankle slightly injured. Captain Wittmann made a fifteen yard run right off the reel, while the O. M. U. players began to show signs of the strain. Then Riley went around end for another touchdown and Schrontz kicked goal. Score, 24-0.

Siffert relieved Featheringham, and after hard line plunges in which Ted Nesser took an active part, he carried the ball over for a touchdown, and Schrontz kicked goal, making the score 34-0.

For a time after the seventh kickoff the ball exchanged hands several times, always in O. M. U.'s territory, and the Tigers simply annihilated the interference of the visitors.

Tigers		O. M. U.
Schrontz	LE	Cann
McFarland	LT	Hockins
Kerchoffe	LG	Reemsnyder
Shiring, Haag	C	Saunders
Botoner, Tilton	RG	Wyker

Arthur Morris, of Mt. Union, referee.
Progh, of Ohio Wesleyan University, umpire.
S. Baltzly, Head Linesman.
A. H. Coleman. Timekeeper.

NOTES OF THE GAME.

Only one first down was made by O. M. U. during the entire game. That was when the visiting left half went around Massillon's left end on a trick play for about fifteen yards.

Although Moran was only called upon once to punt, he outpunted Means, the visting team's famous fullback.

It certainly was "Bullet" Riley all during the game. "Polly" slammed into everyone and anyone like a streak and made good his nickname of "Bullet."

"Doc" McChesney showed that Manager Wise made a good move in bringing him back to Massillon. "Doc" worked like a trojan until he got his ankle slightly turned and then Nesser was given a chance to show that he has lost none of the speed which made him a favorite here last season.

"Big" Frank Botoner, although the smallest of the five center men, showed better form than ever. The policeman is in better condition than last year and is younger than he was five years ago.

Captain Wittmann was there with the goods throughout the entire game.

"Bob" Featheringham followed his interference better than any man on the team and made long gains. "Mully" slammed into the line as in days of yore, and looks great again at fullback.

Moran is a hard, consistent ground gainer and very valuable to the team on account of his punting. He showed all sorts of fire and pepper until he had his head hurt.

Then there was "Bob" Shiring. "Bob" is the same old center and helped materially in the victory, and with "Kerky" and McFarland on his left and Botoner and McChesney on his right, made a great center five. Massillon has selected a great trio in Schrontz, Merriam and Wittmann, and, in fact, not a player who participated in the game disappointed the coach, captain or manager.

WAITING FOR VERDICT.

Mrs. Chadwick Showing Signs of Nervousness.

Cleveland, Oct. 7.—Mrs. Cassie Chadwick is nervously awaiting the outcome of her appeal for a new trial now on hearing before the court of appeals in Cincinnati, but she keeps her anxiety to herself and seldom mentions her case to her jailers or fellow prisoners. Her anxiety, however, is indicated by her demeanor, which has shown a change in the past few days. She easily becomes irritated and is quick to find fault with her jailers over trivial matters. She still professes confidence that she will secure a new trial.

"I think Mr. Dawley will be able to convince the court that my trial was not a fair one," she said Wednesday. "Anxious about the result? No. I will wait till I read about it in the papers. That will be quick enough to hear about it."

Mrs. Chadwick's health appears good, but she has grown slightly thin during her long confinement. She spends the greater part of her time in reading.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

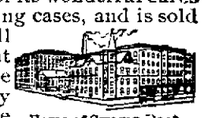
It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.



Home of Swamp-Root.

PENSIONS FOR ALL.

Twelve Dollars Per Month for Survivors of Civil War.

Chicago, Oct. 7—A plan to give all survivors of the civil war a pension of $12 a month will be proposed to President Roosevelt by Corporal James Tanner, former commissioner of pensions and recently elected commander in chief of the Grand Army of the Republic. Corporal Tanner and his family were overnight guests of friends here and left this afternoon for Washington.

The plan is incorporated in a service pension bill prepared by the Grand Army and indorsed at three successive national encampments. Corporal Tanner will take up the matter with the President in the near future. Speaking hopefully for its success, he said: "I know there is a man in the White House who, if once we convince him that this measure is just, will side with us. He stands today the most representative man, not only of the nation, but of the sixty years of its history which my career covers, and his power and prestige are such that he can beckon to the recalcitrants in congress and make it desirable for them to fall into line for us."

HERRICK'S TOUR.

Opening Speech of His Campaign October 16.

Columbus, Oct. 7.—The date of beginning Governor Herrick's trolley stumping tour of Ohio has been settled upon as October 16, when the governor, with A. L. Harris, the candidate for lieutenant governor, will start from Columbus in a special trolley car and go direct to Springfield, Dayton, Lima, Celina and intervening towns.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure Doan's Ointment. Absolutely safe; can't fail.

No such thing as 'summer complaint' where Dr. Fowler's Extract of Wild Strawberry is kept handy. Nature's remedy for looseness of the bowels.

Executrix's Sale of Real Estate.

In pursuance of an order of the Probate Court of Stark County, Ohio, I will offer for sale at public auction on the

14th day of October, A. D. 1905,

at 1 o'clock p. m., upon the premises, the following described real estate, situate in the Township of Sugar Creek, County of Stark, State of Ohio, to-wit: Being the north half of fractional Section No. Seven (7), Township No. Eleven (11), and Range No. Ten (10), containing forty-five (45) acres and eighteen hundredths (18-100) of an acre, except twenty-two and one-half (22½) acres sold off said fractional section No. Seven (7) to Joseph Budd on the north side of said fractional section, leaving a balance of land of twenty-two and one-half (22½) acres, more or less; excepting and reserving, however, all coal underlying the said premises with the right and privilege of removing the same.

Said property is appraised at Eleven Hundred and Fifty Dollars.

Terms of sale:— One-third cash on day of sale, one-third in one year and one-third in two years, deferred payments to bear interest at 6 per cent. from day of sale and to be secured by first mortgage on said premises.

MARY ANN OBERLIN,
Executrix of John W. Oberlin, deceased.

ALONE WITH VICTIM

Chicago Doctor Found in Room With Little Girl Dying From Poison.

THEN TAKES MORPHINE PILLS

Life Saved and He Is Locked Up. Son of St. Louis Millionaire in Sorry Scrape—Deadly Drug Responsible for Terrible Crime.

Chicago, Oct. 7.—Dr. Oliver B. Hart, a young physician residing in the suburb of Rogers Park, is in the custody of the police, pending further investigation of the death of Irene Klokow, 10 years old, which occurred in the residence of the physician. It is the opinion of the police that a charge of murder will be lodged against Dr. Hart.

The girl died in a bedroom of the Hart residence in which she and the physician had been locked for several hours. It is the opinion of the authorities, based on the facts disclosed at the inquest, that the girl was maltreated and then poisoned in an attempt to conceal the crime. After finding that it was impossible for the child to recover, the physician swallowed morphine and lay in an unconscious condition all of last night and during the greater part of the day. Late in the afternoon he partially recovered and was brought to the city and locked up.

The girl was taken about a year ago from the Illinois Industrial Home for Girls by Dr. Hart and his wife, who desired a girl who could serve in a measure as companion for Mrs. Hart, who is but 17 years of age, and at the same time do light work about the house. Thursday two sisters of Irene Klokow called at the Hart residence and in company with Mrs. Hart went on a shopping expedition. Irene complained of a headache and was left at alone in the house with the physician.

Irene Klckow Found Dying.

What happened in the house is not known, but the first intimation that anything was wrong was a telephone message sent by Dr. Hart to a neighbor, Mrs. Richard Cortis. Dr. Hart told the woman to summon help at once as he was dying. Mrs. Cortis sent word to a physician and then ran to the Hart residence. She let her little daughter climb through a cellar window and unbolt the front door.

After entering she called to Dr. Hart and he shouted from the floor above: "Here I am; you will have to break through another door." Mrs. Cortis threw her weight against the bedroom door and broke it open.

The Klokow girl was lying on the bed, partially dressed, her hair disarranged, and much of it torn from her head, and the room showing evidence of a desperate struggle. The girl was unconscious and evidently dying, and Dr. Hart informed Mrs. Cortis that she had swallowed morphine pills after he had given her some medicine.

Just at this instant Mrs. Hart returned from her shopping expedition and the physician summoned by Mrs. Cortis arrived. Dr. Hart repeated to them the story he had told to Mrs. Cortis, and when the physician, Dr. Hulstron, went to work over the body of the girl Dr. Hart went into an adjoining room and swallowed a large quantity of morphine. The efforts of Dr. Hulstron to revive the girl were unavailing and she died in a sort time. Dr. Hart was given some restoratives and Dr. Hulstron labored over him for several hours before being convinced that he would ultimately recover.

Inquest Adjourned to Tuesday.

The inquest was adjourned until Tuesday, at which time the coroner's physician, who has made an examination of the body of Irene Klokow, will present his report.

Dr. Hart has resided in Chicago but a short time and is the son of a millionaire of St. Louis, who has sent him regularly an allowance of money which has supported him and his wife. Mrs. Hart was before her marriage Vera Kriegesmann, the daughter of an official in the St. Louis postoffice. They were married when Mrs. Hart but 16 years of age. She testified at the inquest that she left Irene Klokow and her husband alone in the house, but declares that she believes him innocent of wrongdoing.

Police Inspector Wheeler subjected Dr. Hart to an exhaustive examination, but the physician insisted that the girl was not murdered, that he did not misuse her, and that he did not attempt to commit suicide. He declared the girl had taken the poison by mistake, and said that his excitement was caused by the fear that he might be accused of her death. After finding that the girl was dead, he declared that he took an injection of morphine to quiet his nerves, and took an overdose.

Dr. Lewke, the coroner's physician, who examined the body of the girl, declared that there was not the slightest doubt that she had been treated in a revolting manner.

Leonard Indicted for Forgery.

New York, Oct. 7.—An indictment for forgery in the second degree against Henry A. Leonard, the youth who secured $359,000 worth of securities from the National City bank on a forged check, has been returned by the grand jury. Leonard is in jail, not yet having furnished $10,000 bail.

VICTORY FOR REVISION.

Massachusetts State Republican Convention Almost Unanimous.

Boston, Oct. 7.—With only one voice raised in opposition the Republicans of Massachusetts in state convention declared for a revision of the tariff.

Contrary to expectations, the radical wing of the party, under the leadership of Eugene N. Foss of Boston, did not offer a substitute for the plank in the platform relating to the tariff, although in a speech to the delegates Mr. Foss declared that the revision of the tariff favored in the state platform was not sufficiently wide in its scope. Mr. Foss said, however, that he and his followers were encouraged at the concessions made to them and that next year they would expect to have the convention accept their proposition in its entirety. The following ticket was nominated:

For governor, Curtis Guild, Jr., Boston; lieutenant governor, Eben S. Draper, Hopedale; secretary of state, William M. Olin, Boston; treasurer and receiver general, Arthur B. Chapin, Holyoke; auditor, Henry E. Turner, Malden; attorney general, Dana Malone, Greenfield.

One of the surprises came when General William F. Draper, former ambassador to Italy and a leading member of the Home Market club opposed in a vigorous speech the adoption of the tariff revision plank of the platform.

Senator Lodge made an address and in a parliamentary manner censured Mr. Foss for his strictures on the Massachusetts representation at the capital. Mr. Lodge also said that the time for tariff revision was the time when the Republican party was in power. He argued that "free raw materials" was but another term for "free trade" and that the admission of free raw materials would sound the death knell of reciprocity as well as of protection.

MAN-HUNT IN WALL STREET.

Crowds of Seekers Compel Sub-Treasury to Close Up.

New York, Oct. 7.—The presence of thousands of persons more than usual in Wall stret caused the sub-treasury gates to be locked for an hour and so interfered with business between banks and exchanges that the police from three stations were hurried to the district to disperse the crowd.

The gathering was attracted by an offer of $300 by a newspaper to anyone who could recognize a man whose picture was published in this paper under the name of "Mr. Raffles," and who was advertised to appear in Wall street.

Many false alarms were given, each one causing a rush of hundreds of persons in pursuit of some imaginary Mr. Raffles. Such a jam of persons climbed up on the sub-treasury steps to witness the proceedings that the officials took precautions to stop a possible rush toward the money vaults and locked the gates.

TAFT TO HAVE CHARGE.

War Department to Control Building of Isthmian Canal.

Washington, Oct. 7.—The management of the isthmian canal affairs will remain under Secretary Taft, who will go to Panama in November to investigate the situation there and thoroughly inform himself of the conditions in the canal zone. The decision to keep the control of the canal in the war department instead of transferring it to the state department was definitely reached in a discussion that followed the cabinet meeting.

Now that the work is to proceed under his direction, Secretary Taft will proceed to Panama, go over the situation in detail, and return to Washington about the time congress convenes. The secretary has had conflicting reports regarding the progress of the work, and he desires to have personal knowledge which will enable him to decide what should be done.

Packers Must Pay for Inspection.

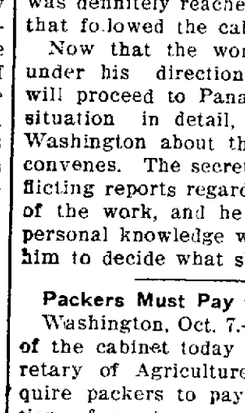
Washington, Oct. 7.—At the meeting of the cabinet today the plan of Secretary of Agriculture Wilson to require packers to pay for the inspection of meats was approved and it will be put into operation at once.

Warned Not to Contribute.

Washington, Oct. 7.—The civil service commission is preparing to forward a circular letter to all government employes warning them against campaign contributions as in violation of the law.

REPUBLICANS NAME HUGHES FOR MAYOR

New York, Oct. 7.—Charles E. Hughes, principal counsel for the committee of the legislature to investigate insurance affairs, was last night unanimously nominated as the candidate for mayor of New York by the Republican city convention in Carnegie hall. The platform embraces an affirmation of the principle of non-partisanship in municipal affairs, a demand for the passage of laws for the protection of life insurance policyholders, the control of future subways by the municipality and the establishment of a municipal lighting plant.



CHARLES E. HUGHES.

VERY FAT PICKINGS

McCurdy Clan Enjoy Bounteous Prosperity at Expense of Policy Holders.

CHIEF DRAWS $150,000 YEARLY

Son, Son-in-Law and Other Relations All Have Places at the Trough—Vice Presidents of Concern Follow Superior's Example.

New York, Oct. 7.—Closing a week, every day of which has produced a sensation that has stirred the country, the special legislative committee investigating the methods of insurance companies, adjourned until Tuesday of next week.

While other weeks of the hearing have had sensations, no previous week has had a sensation every day as the one that was concluded with this session.

When the session opened it was expected the president of the Mutual Life would be called to the stand before the day was over. By a misunderstanding, however, President McCurdy had left the office of the Mutual Life before he was called for and it is expected that he will be the first witness on Tuesday.

The sensational development was when Mr. Hughes demanded the payroll of the executive officers of the company. This was produced and showed the salaries of these officers since 1877. For the year 1904 President McCurdy received $150,000; two vice presidents were paid $50,000 each, a second vice president $17,500, the third vice president $10,000, and the general manger $25,000, who this year will receive $30,000, and the treasurer $50,000.

Never Knew His Father's Salary.

Robert McCurdy said he never knew the salary of his father until today, when he heard it read in the committee room. He thought, however, that there should be no limit to the salary of such positions, because they should be in accordance with the accumulations of the company.

When asked if it was any benefit to the policyholder to increase the president's salary Mr. McCurdy said he thought the trustees had considered that when they increased the president's salary. No increase had ever been considered when he was present at the trustees' meetings.

Earlier, when Mr. McCurdy was on the stand, Mr. Hughes tried to bring out why C. H. Raymond & Co., and the partners in that firm received larger emoluments from the business than any other agency. Mr. McCurdy said he did not know what Mr. Theband received from the business and had never talked with him about his personal affairs. He said it was a "large reward for large achievements," and that all businesses of large magnitude were built up on that principle.

Whole Family at the Trough.

During Mr. McCurdy's testimony it was brought out that George Raymond, brother of Charles H. Raymond, was the general agent for New Jersey; that Howard Lewis, the general agent for Northern New York, with an office in Albany, was a cousin of either the vice president, Mr. Grannis, or Mrs. Grannis; that Dr. E. J. Moss, the medical director of the Mutual Life, married a sister of the president of the company, and that D. Stuyvesant Pillot, an inspector of risks, is a cousin of Louis Theband, son-in-law of President McCurdy, and partner of the Raymond firm.

G. W. White, a secretary of the company, whom Mr. McCurdy was asked about, said he was no relative of any officer of the company, but "that Mrs. White was a niece of Mrs. Grannis, wife of Vice President Grannis." He knew none of the salaries of these officers.

Auditor Unable to Answer.

At one point in the day's testimony much interest was manifested when the expenditures of the company were taken up. An auditor of the Mutual Life, Mr. Preller, was on the stand and he was asked as to the method of recording the expenditures. It was gathered that these were passed upon by an expenditure committee, of which Robert Olyphant was chairman. Three entries on the books of payments to Mr. Olyphant of $25,000 each were looked into but no information could be gleaned. Mr. Preller was asked about the campaign contribution to the Republican congressional committee, but he said none had come under his observation. The $2,500 to the congressional committee was looked for when the ledgers were produced but up to adjournment this had not been found.

Wish to Preserve Niagara Falls.

Cleveland, Oct. 7.—The American Civic association at its session here today adopted resolutions calling upon the governing powers of the United States and Canada to do something to save the Niagara Falls from what was termed "commercial vandalism." President Roosevelt and Governor General Earl Grey are to be asked to appoint a joint commission to suggest the best way of preserving the falls.

Honor Goes to the West Virginia.

Washington, Oct. 7.—The navy department has designated the armored cruiser West Virginia as the vessel which will carry the president from New Orleans to Hampton Roads on his return from the southern trip.

FEMALE "RED" ARRESTED.

Held at Cleveland Pending Word From Washington.

Cleveland, Oct. 7.—Mrs. Anna Ballin, arrested here by United States Marshal Chandler on the charge of being in the country illegally is alleged by the federal authorities to be an anarchist of international reputation and a leader of one of the largest bands of anarchists in this part of the country. The police officials say that Leon Czolgosz, who assassinated President McKinley, was a member of the band.

Several boxes of rabid anarchistic literature were found in the apartments occupied by the woman. She is alleged to be a native of Brunn, Moravia Austria and the wife of an anarchistic editor. It is charged that she was convicted of perjury in her native town several years ago, and that she fled to America to escape punishment.

For about two years the immigration branch of the department of commerce and labor has been searching for her with a view of having her deported. She is said to be known as Anna Najeday and that anarchistic circles the world over are familiar with her. A number of persons who have attended meetings addressed by her were examined by the authorities. Washington officials have been notified and the local officials are awaiting word from them before making any further move.

STANDARD BLAMED AGAIN.

Court Names Second Receiver for Inter-State Oil Company.

Akron, O., Oct. 7.—Following the appointment of John Shaw receiver of the Inter-State Oil company at Youngstown, Judge Kohler has appointed L. C. Miles of this city as a receiver, on application of James Lang, vice president of the company.

The company is capitalized at $2,000,000, and has oil leases on many thousands of acres in Summit and Wayne counties. Factional trouble among the stockholders of the company, it is said, led to the application for a receiver, one faction charging the other with working in the interest of the Standard Oil company.

CLARK ADMITS KILLING.

One of Four Alleged Murderers of Joseph Anderson Confesses.

Wellsburg, W. Va., Oct. 7.—Last night William Clark, one of the four suspects under arrest for the murder of Joseph Anderson at Bowman's station, confessed committing the crime to Prosecuting Attorney McCleary. He claims to have been set upon by two friends of Anedrson, but the evidence of others shows conclusively that this part of his story is pure invention.

Anderson was a brother of Mrs. Fowlkes, whose husband killed her at Brilliant, O., recently, and was searching for Fowlkes when he was met and killed by Clark.

Moderation Is Urged.

Cincinnati, Oct. 7.—Resolutions have been adopted by the Ohio Policy Holders' association, recently organized to look after the interests of the holders of insurance policies, deprecating adverse action by state officials on the charters of the companies now under investigation. It is declared that any revocation of a license "would tend to make policyholders withhold payments of premiums due and thus possibly violate their policy contracts without any advantage to themselves, but to their own possible loss and to the injury of the companies."

Youngstown Doctor Kills Himself.

Buffalo, Oct. 7.—Dr. Albert E. Warren, 36 years old, of Youngstown, O., committed suicide by shooting himself through the head with a revolver. Dr. Warren was visiting friends on Masten street. He had been in ill health and was sick in bed when he shot himself. Dr. Warren was well known in Youngstown and took a prominent part in church work. His wife is at present visiting in Meadville, Pa.

Cable Breaks Killing Two Men.

Springfield, O., Oct. 7.—Frank Waters of Chicago, a contractor engaged in widening a Pennsylvania railroad bridge, was instantly killed, and a sub-contractor, R. F. Henry perhaps fatally injured, by a falling derrick at Wilberforce, south of here. A cable on the derrick carried away and it fell 45 feet upon the two men. Other workmen had narrow escapes.

Postal Clerks Want to Be P. M.'s.

Cincinnati, Oct. 7.—The convention of Railway Mail Clerks has adopted a resolution declaring that congress should provide for the retirement of postal clerks at the age of 55 and their appointment as fourth-class postmasters.

Howells Accepts Consulship.

Columbus, O., Oct. 7.—Senator Dick is in receipt of a letter from J. A. Howells, editor of an Ashtabula paper to the effect that Howells has decided to accept the position of consul at Turks Island, West Indies. The position pays $1,500 and $600 fees.

Judge Kumler of Dayton Dead.

Dayton, O., Oct. 7.—Alvin W. Kumler, judge of the common pleas court, one of the best known members of the Ohio bar, died suddenly of heart failure at his home here.

$5,000 Each for Train Robbers.

St. Paul, Minn., Oct. 7.—Having failed to get any clue of the men that held up the Great Northern flyer near Seattle, the Great Northern railroad has offered a reward of $5,000 each.

EXPOSED BY EMPLOYE

Were Financial Irregularities of Peoria, Ill., Banker and Educator.

FAITHFUL CLERK DISCHARGED

After Having Called Attention to His Superior's Criminal Methods His Services Are Dispensed With—Thirteen Indictments Returned.

Peoria, Ill., Oct. 7.—At a meeting of the directors of the Peoria National bank last night it was unanimously voted to close the doors of the institution and ask the comptroller to take charge. Since the indictment of N. C. Daugherty, former president of the bank, on many counts of forgery hundreds of depositors have withdrawn their accounts and this caused the hasty action.

Peoria, Ill., Oct. 7.—A total of 13 indictments have thus far been returned against Newton C. Dougherty, city superintendent of schools and president of the Peoria National bank. Ten of them are for embezzlement and three for forgery. Forty more are being drawn up by the state's attorney's office. It was announced from that office that the total would reach more than 200. The bail required for those thus far returned is $12,700.

Mr. Dougherty is in receipt of messages from all over the country, many of them expressing sympathy and a belief in his innocence. According to a statement made by a member of the grand jury, hundreds of pieces of school scrip, alleged to have been changed after being signed by the president of the school board, are missing.

School Board Will Investigate.

A committee appointed by the school board to continue the investigation after the grand jury gets through has announced that the committee would go back over the books of the board for 20 years. In some cases stubs and vouchers are missing, representing, according to the cash book, large amounts.

Erwin J. Schnebly, discount and exchange clerk at the Peoria National bank, the man who first discovered irregularities in Mr. Dougherty's method of handling school funds, makes this statement:

"I took charge of the individual books at the bank seven years ago and shortly thereafter I began to notice the queer methods Mr. Dougherty had of handling the funds of the Peoria school board. He would make checks payable to various local firms and give his personal check for a smaller amount. I called the attention of the bank officials to this state of affairs, and was informed that it was none of my business. I was then transferred to the discount and exchange department. Mr. Dougherty's dealings were carried on as follows:

Asks Advice of Bank Examiner.

"He would bring in checks for large amounts, payable in most instances to a school furniture firm in Chicago or a plumbing firm in St. Louis. With these checks he would purchase New York, Chicago or St. Louis exchange, made payable to his own order. Upon examination of the endorsements on the drafts I found that in many instances they had been used in his private business affairs. In some cases he would endorse the names of local firms on the drafts, without their knowledge, putting his own initials under the signature. I laid the matter before Mr. Cook, national bank examiner for this district. Upon his advice I laid the matter before the attorney general at Springfield. He advised me to take it to the state's attorney of Peoria county which I did. I also laid the matter before S. O. Spring, cashier of the bank. Transactions of that kind then ceased. In explaining them to me Mr. Dougherty said he kept three sets of funds in New York, Chicago and St. Louis.

Discharged for Being Faithful.

"When I was called before the grand jury there were exhibited many changed checks. In one instance a check charged to the school fund had been raised from $24 to $2,450. The stub showed $24. In another was drawn for $2,750, the stub of which had originally read $27 and had been raised to $2,750. The last two figures on the stub were in green ink, the first two in black.

"I was discharged from the bank only last Saturday."

At the meeting of the Peoria Clearing House association it was voted to tender a loan of $100,000 to the Peoria National bank if in the judgment of the directors it became necessary, owing to the condition of affairs following the withdrawal of President Dougherty under indictment.

Wabash Decision Monday Morning.

St. Louis Oct. 7. Judge Taylor of the St. Louis circuit court last night took under advisement until Monday morning the application filed by Joseph Ramsey, Jr., recently deposed as president of the Wabash railroad, for an injunction to prevent the voting at the Wabash annual election in Toledo, O., next Tuesday of stock held by the Missouri Pacific and Iron Mountain railroad companies.

The Hon. Jerry Simpson Better.

Wichita, Kan., Oct. 7.—Former Congressman Jerry Simpson continues to show improvement. He spent another restful night.

DUN'S REVIEW OF TRADE.

Summary of Business Conditions Throughout the Country.

New York, Oct. 7.—Dun & Co.'s weekly review of trade says this morning: Favorable trade reports predominate and there is no anxiety regarding the future. Higher temperature checked retail distribution of heavy wearing apparel and other seasonable merchandise, but preparations for unprecedented fall and winter trade continue without diminution. Superlatives are needed in commenting on real estate transactions, building permits, bank exchanges and railway earnings, and failure statistics for the third quarter show a very low commercial death rate. Quarterly records back to 1875 disclose no three month period when the ratio of liabilities to solvent payments through the clearing houses was lower than the 62 cents to $1,000 just recorded, while the average loss to each firm in business of 15.26 was less than in any year except 1881.

Industrial activity increases, large tonnage of new business assuring full time at the steel mills till further into next year; footwear shops show much heavier shipments than in 1904, and the textile factories are well engaged. Better crop news weakened cotton and grain prices slightly, but there will be enormous profits to the growers even if quotations go still lower. No serious weakness is feared, no matter how large the production, owing to the interest of exporters.

HALF TON OF BLACK BASS AND FISHING BOAT SEIZED

Sandusky, O., Oct. 7.—The launch Major Wilcox, owned by the A. Booth Fish company, with a half ton of black bass on board said to have been caught with nets in Lake Erie, near North Bass island, was seized by Game Wardens Crossley and Shirley when the boat arrived at this port. Charles Michler, district manager for the company, has been placed under arrest. Paul North, fish and game commissioner, will, it is said, endeavor to confiscate the Wilcox. It is illegal to take black bass except with a hook and line.

Ten Men Killed by Cave-In.

Granville, N. Y., Oct. 7.—Ten men met instant death at the quarry of the Vermont Slate company here when about 100 feet of the west bank caved in, burying the victims under hundreds of tons of slate and loose earth. Five bodies were recovered, but it is doubtful whether the others can be reached before next week. The dead, with the exception of John G. Williams, president and treasurer of the company, are all Hungarians.

Extreme Curiosity.

The fourteen year old son of a respectable Jew in Warsaw hanged himself the other day. He left a note, saying: "I have hanged myself out of mere curiosity. I could not help myself. I had to find out what they were doing in the other world."—Jewish World.

NATIONAL AND AMERICAN GAMES

Standing and Scores of the Major League Teams.

LOCAL HAPPENINGS.

Discovered this Week by Independent Investigators.

Born, to Mr. and Mrs. Fred Hoppoldt, of Orange street, a daughter.

Born, to Mr. and Mrs. Fred Mack, in Cecil street, a daughter, Tuesday evening.

Mr. and Mrs. George Myers, of Lignonier, Ind., are visiting Mr. Myers' parents, west of the city.

Mr. and Mrs. Rollin Everhart, of Gnadenhutten, are guests of Mrs. S. J. McLaughlin, at her residence, 28 North Mill street.

Thomas M. Scott, of Alliance, who served in the Nineteenth Ohio infantry during the entire war of the rebellion, died Tuesday, aged 71 yers.

Lake Brady has been sold to a party of Salem and East Liverpool capitalists for $25,000 The new company proposes to spend $100,000 in fitting it up as a summer resort

Andrew Carnegie has pledged $50 000 of the $200 000 to be raised for Mt Union college, providing the college succeeds in securing the remaining $150,000 was the announcement made by President A B. Riker Wednesday Of this latter amount $70,000 has been secured.

Nicholas Culp died at his home in New Berlin Thursday afternoon, after a short illness, aged 83 years He was born in Belgium, came to America in 1846, and settled in Massillon in 1848 Later he moved to New Berlin, where he has since resided He was a member of the Forty third Ohio infantry during the civil war

William Harrold, for years a well known and popular motorman on the city lines of the Canton-Akron Railway Company, will leave next Tuesday for Wooster, where he has taken a position as general overseer of the plant of the Ohio Bottle Company. Mr. Harrold with his family lives in Superior street.

Seventy-five veterans of the Seventy-sixth Ohio regiment, in session at Newark, on Wednesday selected Uhrichsville for the next meeting and elected these officers President, for life, Colonel Charles H. Kibler, Newark; vice president, George Earl, Massillon; secretary, Finley Stafford, Newark, treasurer, John Heiser, Newark, chaplain, J. M. Scott, Alexandria

The exact loss suffered by the village of Oberlin through the influence exerted by Cassie L. Chadwick upon the late President C. S. Beckwith, president of the Citizens National bank of Oberlin, is $2,160,96. The fact is made a matter of record in the report of the investigation of the villages of Lorain county, conducted by W. P. DeHart, a deputy examiner, and filed with the state bureau of accounting Wednesday.

One of the finest crops of corn ever raised in Stark county is being harvested on the farm of the venerable Daniel Shilling, located four miles west of Massillon, which he says is averaging one hundred busheis of ears to the acre. Mr. Shilling is one of the oldest residents of Tuscarawas township and has long been one of the best farmers in this section. The farm is now conducted by his son, Jacob M. Shilling.

President Holden, of Wooster university, Thursday morning announced, at the chapel exercises, a gift of $35,000 from H. C. Frick, of Pittsburg, to be used in making an addition to the university library. The present library was presented by Mr. Frick, six years ago, but is now too small. The new addition will be a duplicate of the first, both in size and style of architecture. Ground will be broken in the spring and the building finished by next September.

OBITUARY.

FRANK MILLHOF.

Frank Millhof, aged 70 years, died of the infirmities of old age Thursday morning at 12:10 o'clock at the home of his daughter, Mrs. Frank Hess, in East Main street. Mr. Millhof was born in Prussia, but had spent the greater part of his life in Stark county. He had made his home with Mrs. Hess for the past four years. The deceased is survived by five daughters and two sons: Mrs. Hess and Mrs. Joseph Eberly, of Massillon; Mrs. Charles Joliet, Mrs. F. Blanchard, Mrs. Ella Mott and Frank Millhof, of Canton, and Edward Millhof, of Elyria. The funeral will be held Saturday afternoon at 1:30 o'clock from the late residence. The Rev. J. E. Digel will conduct the services and the body will be taken to Canton for interment in Westlawn cemetery.

NEARBY TOWNS.

CRYSTAL SPRING.

Crystal Spring, Oct. 6.—Mrs. Charles Esch spent a few days with friends in Canton this week.

Postmaster W. A. Leonard and Eli Hoover were business visitors in Canton, Wednesday.

Mr. and Mrs. Fred Torgler and children, of New Philadelphia, visited Sunday at the home of Mr. and Mrs. Charles Esch.

Mr. and Mrs. Henry Rummins spent Sunday in Canton.

Mr. and Mrs. Arthur Rohr, George son Willard, and Mr. and Mrs. C. M. Leonard and family, of Massillon, were guests of relatives at this place last Sunday.

The Crystal Spring public schools opened their fall term last Monday. The following corps of teachers is in charge: Edwin Ebie and Miss Bertha Stoner, of New Berlin, and Miss Cora Keterrer, of Canton.

The home of Mr. and Mrs. James Archibald was the scene last Sunday of a pleasant gathering of relatives and friends, who assembled to help celebrate Mrs. Archibald's seventy-third birthday anniversary. A large dinner was served for forty people. Those present from out of town were: Mrs. Isabelle Campbell, sons James and Gene, Miss Jeannette Miller, Mrs. Jessie Hardman and family, Mr. and Mrs. Matthew Moses and family, M. and Edmund Howald and Miss Alice Laviers, of Cleveland; Mr. and Mrs. Charles Dickerhoff, of Canton; Mr. and Mrs. Will Carpenter Mr. and Mrs. Walter Harwood and family, of Salem; Mr. and Mrs. Cameron Miller and family, of Massillon.

MT. EATON.

Mt. Eaton, Oct. 6.—Hello! Mt. Eaton is still on the hill, and is yet a summer resort. Let some wealthy persons come this way and start a sanitarium and it will pay surely, and the street car line will be in evidence too, and then we'll fly around these hills and the kings and queens will hie in and out and we will see all the good folks coming in from all directions. It is no joke. We invite a boom and you'll be welcome, so come along.

Mrs. Jones, a wealthy lady from Sharpsburg, Pa., has been here on a visit for several weeks at the Misses Westcott's and the Cheyney sisters' homes. She is accomplished and modest in manner and conversation. She returned Wednesday and we all hope to see her here again.

Mr. and Mrs. C. King, of Massillon, have been sojourning in our village, and Mrs. King's sister, Mrs. Warthorst, is also a frequent visitor, stopping at the hotel and calling upon friends who have called to see them. They are delighted with the place. They called with winsome Mary Louise at the Cheyney sisters' home Monday evening, and Mrs. Stauffer exhibited to them a choice selection of crystals she had just found a few moments before. They are, with little Mary, always welcome to our place. More anon.

WILMOT.

Wilmot, Oct. 7—Miss Mamie Barkey and David Dallard, of Cleveland, were married by the Rev. Mr. Hoak, of Dalton, at the home of the bride's parents, Mr. and Mrs. Isaac Barkey, four miles west of Wilmot, Thursday afternoon. Twenty guests from Cleveland witnessed the ceremony. The bride and groom left on an evening train for Cleveland, where they will make their home.

DALTON.

Dalton, Oct. 9.—The seniors and juniors of the high school are having quite a time with their respective banners that do not receive very respectful treatment. A junior with the aid of a pair of climbers crawled up the telephone pole at the public square and put a banner on the wires, Friday evening. The next evening it was burned down at about 11 o'clock. An attempt had been made early Saturday evening while it was yet daylight by men who had a number of fishing poles tied together with a torch at the end. He had barely gotten the pole in perpendicular position, which summoned all his manly strength, when a junior walked up and grasped the pole, just scorching the banner in its descent. The pole was cut in pieces. The seniors' banner was not up long. It was placed and fastened to a ledge of a window on the school building and was easily accessible to their opponents who were waiting to destroy it. The janitor was ordered to remove it before a rush would occur and cause unnecessary damage to the building and furniture or the participants themselves.

John H. Owens has been on the sick list the past week.

A window in the front of M. F. McDowell's hardware store was broken late Saturday night by three men who fell into an altercation. Two farmer boys were having a big time and walked up and picked a fight with a stranger who said he did not know anyone here and did not care to fight, although he would not be bullied. One of the farmers opened with a blow, which was doubly returned by the stranger. The former lay insensible on the sidewalk a few minutes, and recovering, gained his footing, clinched with his opponent, throwing him into the window. He was cut about the head by the glass, while the other was somewhat bruised also. The boys settled with the merchant for the broken glass.

Many reports are current regarding the improvements to be made by the Wheeling & Lake Erie railroad. Information cannot be gained from the head men of the company. Several uncertain reports are circulated concerning the actions of the surveyors who have been surveying around all sides of the depot and caused some people, who are likely to exaggerate, to state that the railroad is coming [illegible] the bottoms from Navarre or Justus and go due north, avoiding the sharp and long curve near the Ressler farm, north of town. The other reports are as baseless and it is improbable that the officials will give out their plans beforehand and give due notice to proper authorities along the line when and what work will be done.

F. E. Tracy is able to be around town, having recovered from a mild attack of typhoid fever. Mrs. Tracy and son Ralph are convalescent.

Samuel Huntsberger was struck in the face near the left eye, in the coal mine, Monday. The injury was not serious.

Amos Martin, wife and children, of Washingtonville, O., are visiting relatives in town and country, having made the trip overland.

D. F. Schultz and John H. Owens were visitors in Akron last week, attending the fair.

Willis Sellers has moved into the Eckhart property in West Main street.

Isaac Hough, of Wooster, county auditor, was calling on his old friends here last week.

Ed Horn is working in Massillon.

Martin Schultz, an insurance agent of Massillon, was a visitor in town on business on Thursday.

L. C. Davison and Charles Wecht attended the fair at Akron last week.

Thomas Douglass, living near Applecreek, was in town Thursday.

Joseph Devere had a runaway, east of town, last week. Slight damage to the buggy was the result.

Adam Ustler moved his household goods into the McElhinney property, in West Main street, on Thursday, from the Lehman property, on the state road, east of town.

Dorothy Owens, the 5-year-old daughter of John H. Owens, fell on Friday, cutting a small gash in her head.

HAPPY WOMEN.

Plenty of Them in Massillon, And Good Reason For it.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest,
The distress of urinary troubles,
She finds relief and cure?
No reason why any Massillon reader Should suffer in the face of evidence like this:

Mrs. Mary C. Kilway, of 49 Duncan street, Massillon, says: "I have no hesitation in recommending Doan's Kidney Pills for I know from actual experience their value in all cases of backache and kidney trouble. I had severe pain in my back across my loins and through the kidneys, the result of doing extra work about the house or from a cold settling in my kidneys. I was often so bad that I could not sit in any one position for any length of time, and the least exertion tired me. Procuring Doan's Kidney Pills I commenced using them. They helped me at once and a short course of the treatment entirely relieved me. My husband also used Doan's Kidney Pills and found them most satisfactory."

For sale by all dealers. Price 50 cents, Foster-Millburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no substitute.

Cab Stealing in London.

Cab stealing is by no means an uncommon thing in London. A cabman who has had any experience in the great metropolis would not take the risk of leaving his vehicle even for a few minutes unless he placed a reliable man in control, but the unwary are frequently robbed of horse and vehicle. The cab thief usually drives some distance from where he stole the property and takes advantage of some secluded spot or quiet street to alter the number of the vehicle, so as to escape immediate detection. This done, he has two alternatives. He either tries to earn a few shillings in fares before abandoning the cab or else he makes away with the whip, rug, mat and lamp, leaving the vehicle for the police to take charge of when found. Some thieves actually go to the trouble of stripping off from the wheels the india rubber tires.—London Standard.

Worry Either Way.

Old Party—You worry your mother terribly. Why are you so wicked? Bad Boy—'Cause if I'm good she'll worry thinkin' I'm sick.

Loss of Sleep Means Loss of Mind.

Inability to Sleep is Nature's Plain Warning of an Exhausted Nervous System.

DR. A. W. CHASE'S NERVE PILLS

When you overwork any muscle or set of muscles they tire and must have rest. What is true of muscle is doubly true of the brain, as from it emanates all power to work, to act, to think. The brain is full of little cells that during the waking hours are never quiet in their efforts to furnish to every organ the power to do its duty. Rob these little cells of their rest at night—keep them at work all the time, and soon they tire, refuse to act, fail to generate nerve force and the system goes to ruin. Bromides, sedatives, opiates only hasten the end—they do not build up, they tear down. The true remedy, the only cure, lies in Dr. A. W. Chase's Nerve Pills, a medicine that revitalizes, reinvigorates, and by properly nourishing these overworked little cells, give them rest and quiet and enables one to sleep naturally and easily again.

Mrs. Fred Wholeben, of Glade Run, Warren, Pa., says:

"I was induced to use Dr. A. W. Chase's Nerve Pills for excessive nervousness. I was so nervous I could not bear a noise or much talking. I was very forgetful—my mind seemed dull. I was listless and tired all the time The result of the use of the box I got was remarkable. They toned up the nerves and system generally and I work well again, am strong—my mind is clear and noise and talk no longer bother me. I am much pleased with the pills and can recommend them highly to anyone who feels as I did." 50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. M., are on every package. For sale by E. S. Craig, Druggist, Massillon.

NO PEACEFUL PICKETING.

Decision of Chicago Judge in Strike Case.

Chicago, Oct. 7.—"There is no such thing as peaceful, polite and gentlemanly picketing," declared Judge F. A. Smith, of the appellate court Friday in deciding against Franklin Union of Pressteeders and three of its members who had been fined $100 each and sentenced to thirty days' imprisonment for violation of an injunction secured by the Chicago Typothetae prohibiting interference with employes. Judge Smith said:

"There is no such thing as peaceful, polite and gentlemanly picketing any more than there can be chaste, polite and gentlemanly vulgarity or peaceful mobbing or lawful lynching. It is idle to talk of picketing for lawful persuasive purposes. In imagination and in theory a peaceful picket line may be possible, but in fact a picket line is never peaceful."

The First English Lighthouse.

It is to the Romans, who left so many marks of their presence in England, that Britons owe the first lighthouse. This was, and is still the Pharos watch tower to the south of the keep of Dover castle. This is remarkable as the only remaining specimen of Roman work in the castle and as the earliest piece of regular masonry now existing in Great Britain. It consists of a casing of flints and tufa, with bonding courses of large Roman tiles filled with smaller stones. Its shape is octagonal outside, but square inside, the inner room measuring fourteen feet and the walls being ten feet thick. Repaired again and again, it was used at one time as a government storehouse.—London Chronicle.

Railways in 1840.

A writer to the New York Mirror of 1840, in the course of a rhapsody on the railway, says: "Dueling and changing horses and separate rooms are at an end, our light literature must now become woven with steam, our incidents must arise from blowups and love be made over broken legs, while here the novelist will have to record the falling in of a tunnel, the only chance left for a touch of the sublime." Trains then proceeded under wonderfully good condition occasionally at the awe inspiring speed of thirty-five miles an hour as a maximum
